## When the Boss Isn't Picking Up the Tab for Health Insurance

The federal government estimates that 47 million individuals lacked health insurance coverage of any kind last year. Other research shows that tens of millions more Americans go without health coverage for shorter periods of time. You don't have to go without just because you've lost your job or can't afford COBRA. Below are some resources.

High health care costs prevent some children from receiving the medical attention they need. Currently, there are over 67,000 Kentucky children who are qualified to receive care through the Kentucky Children's Health Insurance Program (KCHIP) or Medicaid but are not yet enrolled. For more information: <http://kidshealth.ky.gov/en/>

Kentucky Access is a division is focused on a state-authorized program aimed at people with high-cost conditions who must buy their own health insurance. <https://www.kentuckyaccess.com/index.cfm>

Gov. Steve Beshear recently announced a new program to aid eligible Kentuckians in locating free or reduced cost prescription drugs, the Kentucky Prescription Assistance Program (KPAP). For more information: 1-800-633-8100.
